Marking Scheme

**QUALITY ASSESSMENT DEPENDS ON SCORER RELIABILITY**

This document has been prepared for the use of Marking Examiners. Some changes would be made according to the views presented at the Chief Examiners' Meeting.

Amendments are to be included.

## G.C.E.(O/L) EXAMINATION - 2022 (2023)

### Common Techniques of Marking Answer Scripts.

It is compulsory to adhere to the following standard method in marking answer scripts and entering mark sheets.

1. Each Assistant Examiner should use red colour ball-point pen for marking answer scripts.
2. A purple colour ball-point pen should be used by Chief Examiners.
3. Code number of the Assistant Examiner should be noted down on front page of each answer script. Enter marks in **clear numerals**.
4. Write off incorrectly written numerals with a clear single line and authenticate the alterations with Examiner's initial.
5. Enter the marks of each subsection of a question as a rational number in the given space of  $\Delta$  and the final marks of each question should be entered as a total rational number in the given space of  $\square$  by denoting respective question number as well. Use the column assigned for the Examiners to write marks.
6. Evaluation Mark Finalizer should use blue or black colour pen to verify the accuracy of the marks.

**Example: Question No. 03**

(i)		✓	$\Delta \frac{4}{5}$
(ii)		✓	$\Delta \frac{3}{5}$
(iii)		✓	$\Delta \frac{3}{5}$
<span style="border: 1px solid black; border-radius: 50%; padding: 2px;">03</span>	(i) $\frac{4}{5}$ + (ii) $\frac{3}{5}$ + (iii) $\frac{3}{5}$ =		$\square \frac{10}{15}$

**MCQ answer scripts: (Template)**

1.
  - i. Mark the correct options on the template according to the Marking Scheme.
  - ii. Cut off the marked windows with a blade.
  - iii. Cut off the cages for Index Number and the number of correct options so as to be able to keep the template correctly on the answer script.
  - iv. Cut off a blank space to the right of each options column to mark the answers.
  - v. Cut off the cages for the subject number and the subject to be clearly visible.
  - vi. **Submit the prepared template to the Chief Examiner for approval.**
2. Then, check the answer scripts carefully. If there are more than one or no answers marked to a certain question write off the options with a line. Sometimes candidates may have erased an option marked previously and selected another option. In such occasions, if the erasure is not clear write off those options too.

3. Place the template on the answer script correctly. Mark the right answers with a '✓' and the wrong answers with a 'X' against the options column. Write down the number of correct answers inside the cage given under each column. Then, add those numbers and write the number of correct answers in the relevant cage.

#### **Structured essay type and essay type answer scripts:**

1. Cross off any pages left blank by candidates. **Underline wrong or unsuitable answers and write cross mark. Point-out areas by a check mark, where marks can be offered.**
2. Use the right margin of the overland paper to write down the marks.
3. Write down the marks given for each question against the question number in the relevant cage on the front page in **two digits**. Selection of questions should be in accordance with the instructions given in the question paper. Mark all answers and transfer the marks to the front page, and write off answers with lower marks if extra questions have been answered against instructions.
4. Add the total marks carefully and write in the relevant cage on the front page. Turn pages of answer script and add all the marks given for all answers again. Check whether that total tallies with the total marks written on the front page.

#### **Preparation of Mark Sheets.**

Except for the subjects with a single question paper, final marks of two papers will not be calculated within the evaluation board. Therefore add separate mark sheets for each of the question paper. Enter paper I marks in "Total Marks" column of the mark sheet and write them in words as well. Enter paper II Marks in the " Total Marks" Column and include the relevant details. For the subject 43 Art, Paper I, II and III Marks should be entered numerically in the separate mark sheets and **should also be written in words.**

For subjects 21 Sinhala language and literature and 22 Tamil Language and literature, paper I marks once entered numerically should be written in words. Use separate marks sheets for the papers II and III and enter the total marks in the "Total marks column". Write the relevant detailed marks against each of the total mark.

#### **N.B.:-**

- I. **Final marks for paper I, paper II or paper III should always be rounded up to the nearest whole number and they should never be kept as decimal or half values.**
- II. **Each page of the mark sheet should be compulsorily verified by the Assistant Examiner who entered marks to the mark sheet, Assistant Examiner who checked the mark sheet, the Verifying Examiner of the evaluation marks and Chief Examiner by placing respective code number and the signature.**

## IMPORTANT POINTS

### Please note

- All sections of each test item are marked, and marks added correctly.
- In writing tests, marks given under each criterion are added to get the total marks.

eg. C - 3  
L - 2  
O - 1  
M - 2  
Total 8

- All written answers have to be read carefully, spending a considerable time before deciding on the mark.
- To be quick in order to finish early should not be the attitude.
- Standardization helps you to become a confident marker.
- Marking is an experience which enhances your knowledge about teaching, learning and testing.
- Please follow the guidelines given by the chief examiner.

## Assessing writing

### Please note

- To pay attention to the length of the answer in awarding marks for the content.
- If 0 (zero) mark is awarded to the content, do not award marks for language, organization and mechanics of writing.
- If 0 (zero) mark is awarded for language, do not award full marks for content.

Read the introduction given by a zoo keeper to a group of children. Complete the table given below with the information of the bird. *The first one is done for you.*

"Hello, Good Morning children! Welcome to the 'Bird Paradise'. I'm going to give you an introduction about Hyacinth Macaw.

It is the largest flying species in the world. It is a parrot native to Central and Eastern-South America. The bird is one metre long from the top of its head to the tip of its long-pointed tail. Its feathers are entirely blue. Its diet consists of nuts from specific palm species. Hyacinth Macaw has a very strong beak for eating nuts and seeds. It can live for 30-50 years. Macaws nest in hollows in trees high up from the ground from July to December. Hyacinth Macaw is one of the most colourful and attractive birds in the world. If you are interested in finding more information about the bird, visit our information centre near the exit gate."

Read the story given below and answer the questions.

- ① A young woman was travelling in Italy. She was in a street in Florence, admiring some leather handbags in a shop window. Suddenly, an old woman touched her arm and said in Italian, 'Excuse me, Miss.' 'Yes?' asked the young woman, wondering what this old woman wanted. 'Is there someone in your family, maybe your mother, called Jennifer?' 'Yes', said the young woman. 'My mother's name is Jennifer. Why? How did you know that?' 'Because you look exactly like the lady who taught me English when I was living in Boston in 1950,' replied the old woman. 'That's strange' said the young woman. 'I come from Boston. But no one in my family is a teacher.' 'Are you sure?' asked the stranger. 'Pretty sure,' she said, but feeling doubtful.
- ⑩ That night back at the hotel, the young woman phoned her parents' home in Boston and she told her mother what had happened that day. Her mother told her that for about five years in the 1950s she had volunteered to help foreign students to learn English. Many of them had come to America from Italy.

Read the following text and answer the questions given below.

'Tom!'

The old lady put on her glasses and looked about for him.

'Tom!' she called out again, but there was no response. She walked up to the open door and looked out in the garden for him. Just then she heard a noise behind her and she turned around to find Tom sneaking out of the large cupboard in the room. She grabbed him by the collar of his shirt.

'So that's where you were!' she said. 'How many times have I told you to keep your fingers out of my jam jars. I will teach you a lesson this time.'

With that she marched him over to the umbrella stand next to the door and pulled out a cane. Tom knew he was going to get it and he had to think up something very quickly.

'Look out Aunt Polly! There is a rat in the closet.' He shouted.

The old lady shrieked and let go of Tom's collar. Before she discovered the imaginary rat, Tom ran out of the door and disappeared over the fence.

'I guess, I will never learn, this boy seems to have a new trick up his sleeve each time I try to get him.'

That evening Tom got late coming home and he decided to climb through the window rather than use the front door. As he climbed through the window, he found aunt Polly waiting for him.

'Ah! So you found time to come back!' She said.

'Aunt Polly I .....

'No! don't answer me, I can see that you have been busy, I guess since it is past dinner time you would not be hungry, so wash yourself and go to sleep.'

With that she closed the door and walked out of the room with a firm resolve that she would teach him a lesson the next day.

Test 1b

### C. Advantages and disadvantages in studying in a foreign country.

In the fast moving and busy society, it is a trend to move to a foreign country for different purposes. As a result of being commercialized and colonized with the arrival of Europeans, like the British, most of the people in the Asian countries embraced the western culture. The interest to learn in a foreign country, especially in a European country is rooted in the mindset of the Asians. Thus, most of the Sri Lankans also have decided to give their children education in a foreign country.

There are not only advantages, but also disadvantages in studying in a foreign country. Let's discuss the disadvantages. The first thing is that, we have to be away from not only our family, but also from our beloved ones such as friends and relatives. We will feel the loneliness due to the isolation from our family members. We won't be able to taste our traditional food, visit the favourite places etc. The climatic changes will also affect us. Further, the natives won't welcome us as our own countrymen. So, we must have a good knowledge also for a better life in a foreign country, and also have to learn their language for better communication. These are the disadvantages which affect us, studying in a foreign country.

But in spite of these effects, there are

advantages in studying in a foreign country, as well. Especially in the countries in Europe, there are very useful ways of learning according to the new technology. And also, as those countries are international centers of sharing knowledge, we can meet different people from different cultures. It will be a golden opportunity for us to have a clear idea of learning about the western culture. It is great for a young student who is willing to have a comfortable life, to use knowledge as a good investment.

Eventhough foreign education has some adverse effects, I think it will be a great opportunity for the younger generation to build their future.
